### PaxScan® 4336W v4

#### Flat Panel Detector

**Product Description**

The PaxScan 4336W v4 is a lightweight, wireless flat panel detector designed for digital radiographic systems. The 4336W v4 fits standard 14"x17" bucky trays and its wireless communication enables easy migration between table, above the table, chest stand, and mobile cart applications. The 4336W v4 works with commercially available Access Points, or as a stand-alone Access Point. The receptor SDK allows for direct integration into existing systems.
